APPLICATIONS

- + Extremely tough and durable, Heartland Black Series enclosures are used in both indoor and outdoor applications. They provide superior environmental protection for customer equipment.
- + Ideal for the promotion of OEM products and either blend in with their surroundings or command visual attention in applications where improved aesthetics are desired.

BENEFITS

- + Appealing aesthetics and increased visibility to improve customer promotion and branding
- + Versatile, innovative features including a panel management system maximizing internal space, T-slot design for side wall mounting, and octagon mounting feet allowing for unique angling and git with equipment.
- + Impact and corrosion resistant design with full polycarbonate material construction.

INNOVATIVE FEATURES

- + Heartland is now available in black color as standard in 12" x 10" x 6", 14" x 12" x 6", and 16" x 14" x 8", opaque or smoked clear cover configurations!
- + Lightweight, high-impact rated polycarbonate material construction with molded-in color that will not chip or scrape away.
- + Aesthetically appealing glossy finish.
- + Innovative panel management and side mount capabilities allows full use of interior space to maximize component placement and design flexibility.
- + Cover options include opaque or clear with smoked tint.
- + Available with black polycarbonate or stainless steel latches.
- + Fully non-metallic hinge does not penetrate inside enclosure.
- + One solution enclosure can be configured as a screw cover or hinged cover.
- + Thick, robust side wall construction eliminates side wall flexing.
- + Built in DIN Rail mounting embosses in the back of the enclosure.
- + Sliding T-Nut allows for infinite panel adjustment.
- + Four mounting feet, cover screws, mounting caps, back panel screws, and washers included.
- + Multi-directional mounting feet allow mounting flexibility.
- + Back panel and swing-out panel mounting options available.
- + Custom digital printing and modifications are available upon request through our value-add ModRight program. *Please consult factory.*

MATERIALS

INDUSTRY STANDARDS

- + **Enclosures and Covers:** Polycarbonate with UV inhibitors
- + **Latches:** Black Polycarbonate or Stainless Steel
- + cULus Listed per file #E319779
- + IEC 60529: CULus Listed per file #E362920 IP66, IP68
- + UL 50, UL 50e, UL 508A
- + Type 1, 3R, 4, 4X, 6P, 12
- + **Gasket:** Robotically applied Foam-in-Place seamless polyurethane
- + Operating Temperature Rating: -40°F to +248°F (-40°C to +120°C)
- + UL's best rating, an "f1" per UL 746C (resin has passed tests for UV exposure and water immersion)
